Product Images

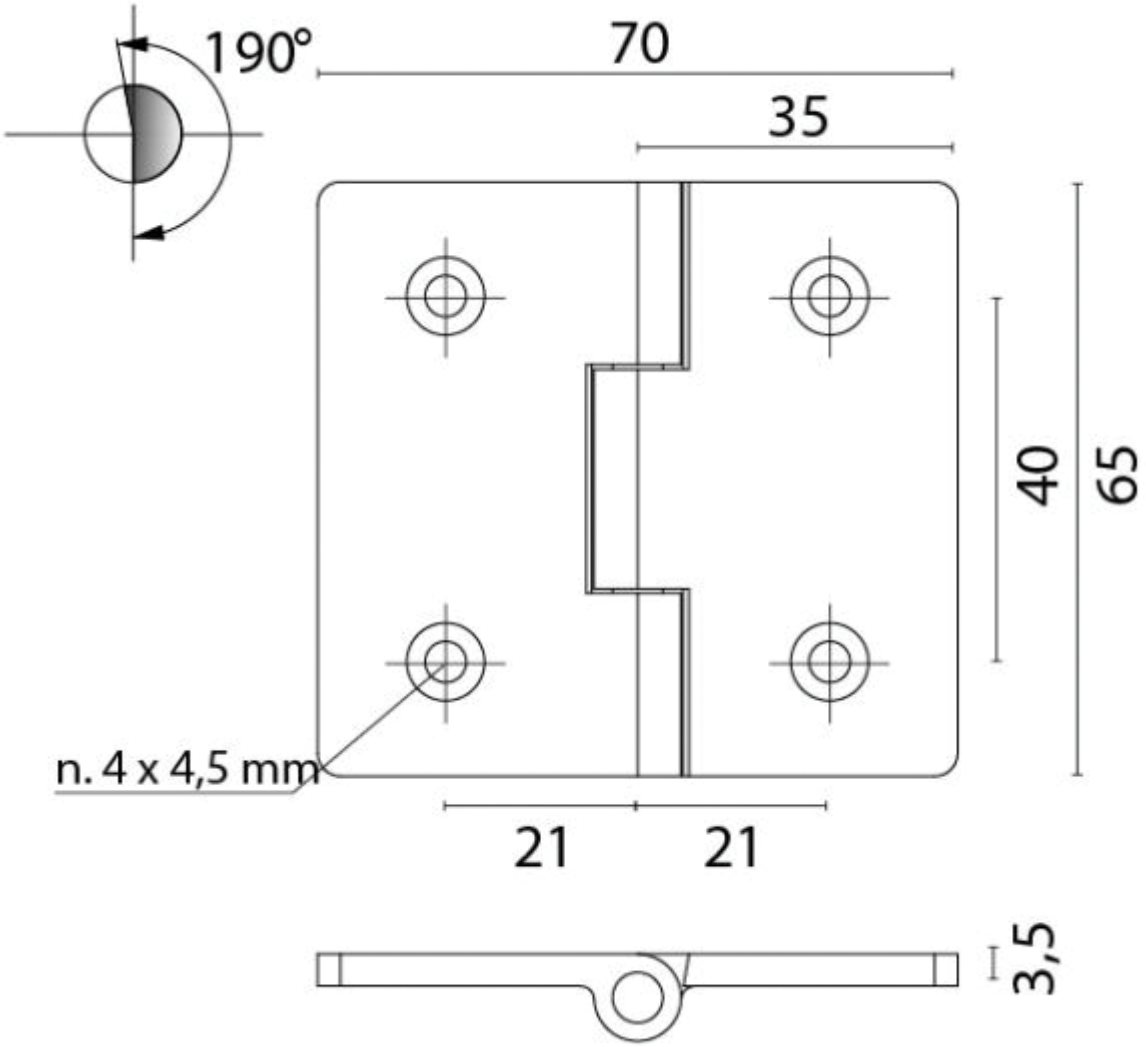

Bruniton finish pictured, available on request.

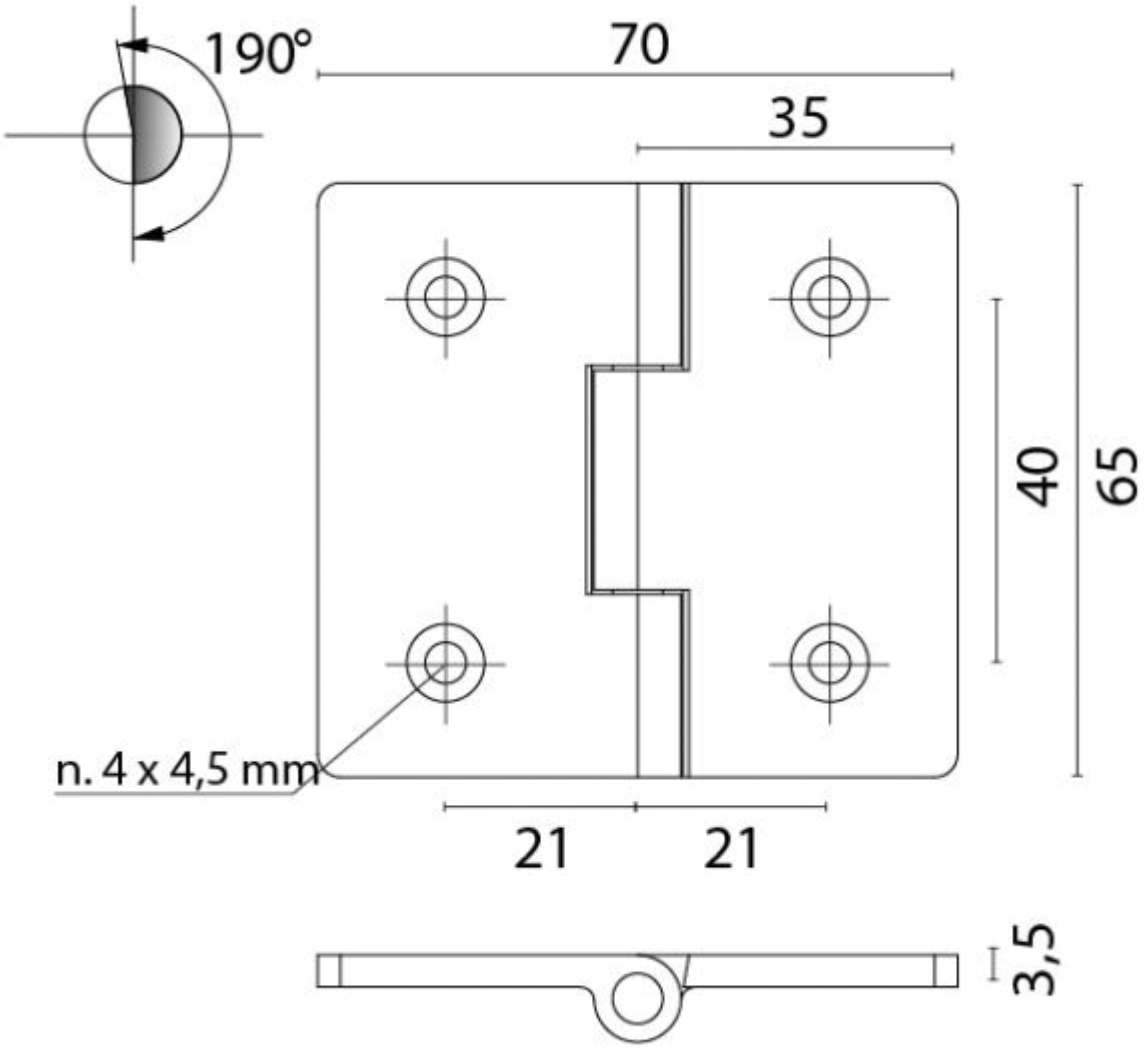

Short Description

The '9207C' flush hinge is crafted from 316-grade stainless steel and had a highly polished finish. On request this can be produced in a Bruniton finish.

On request this product can be supplied in a Bruniton finish. Bruniton is a process similar to PVD, where a substance made up of particle of PTFE (Teflon) are bonded onto the surface of a component under high pressure. The finish is very durable and suitable for exterior marine applications (available in matt black only).
