Short Description

Stylish and practical cleat in 316-grade stainless steel

The 9321 is a retractable cleat made from 316-grade stainless steel. This cleat not only enhances the aesthetic appeal of any deck but also offers excellent practicality. It effortlessly retracts when not in use, helping to keep the deck clear of trip hazards.

Available in two sizes, the 9321 also offers additional finishes, such as Bruniton, upon request.
