Short Description

A stainless steel cup holder for recessed installation

This 316-grade stainless steel cup holder offers a quick and simple installation, providing a sleek and durable solution for your vessel. Crafted from pressed stainless steel, it features a polished top flange and interior sidewalls for a high-quality finish. The exterior remains unpolished, as it is concealed once installed, maintaining a clean and practical design.

- Made from durable 316-grade stainless steel

- Polished top flange and interior sidewalls
- Unpolished exterior, hidden once installed
- Easy to install – commonly glued into place
- Made in Italy by Nautinox Srl
