Short Description

Pair of solid brass door handles complete with spindle.

These door handles are a classic piece of nautical design. The curved shape means that there is little chance of getting the handle caught on clothing when passing by, important when moving around a yacht during navigation. The handles are a compact size and best suited with our smaller mortise locks and rim locks. The handles are sold as a pair and come with an 8mm box spindle. They are available in a polished brass or chromed brass finish.

Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this pair of door handles are amongst the core products manufactured since those early days. The tooling may have been updated and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.
