Short Description

PMX-0R wired remote controller for PMX source units

Easily take control of your audio system with the PMX-0R wired remote controller, designed for seamless integration with all PMX source units. Built for marine and outdoor use, this compact controller features a waterproof rotary encoder and IPX6-rated front panel, providing reliable performance in harsh environments. With intuitive subwoofer level adjustment and backlit LED button illumination, the PMX-0R ensures easy, convenient operation right at your fingertips.

- Compatible with all PMX source units
- Waterproof rotary encoder for reliable volume control
- Front panel subwoofer level adjustment for precise bass control
- Front panel illumination control for easy visibility
- IPX6-rated front panel for water resistance and durability
- Backlit LED button illumination for clear, user-friendly operation
