Excl. Tax: **£5.01**

Product Images

Short Description

A set of 8 anti-vibration mounts as fitted to Marco pumps. These small rubber fittings act as a rubber washer between the pump body and the installation surface with a fixing screw that passes through the middle (screws not included).

Replace these mounts when they become old and brittle to ensure the pump remains as quiet as possible on board.

Additional Information

Weight	0.010000
Manufacturer	Marco
Power Consumption	3 Amps
Liquid Type	Fresh water
