Short Description

Rockford Fosgate add-on tweeter kit

The PM2T-S is a high-performance marine-grade tweeter kit designed to complement your existing Rockford Fosgate ColorOptix™ speaker system. Featuring a 1" aluminium dome tweeter, it delivers crisp, accurate high frequencies, ideal for enhancing clarity in marine audio environments. With flexible mounting options—including flush or horn-style—plus an external audiophile-grade crossover, this kit ensures precise frequency distribution and long-term protection. Built with durable, marine-grade materials and IPX-rated protection, it's designed to withstand the toughest conditions on the water.

- 1" (25mm) high-efficiency aluminium dome tweeter
- Compatible with M2 ColorOptix™ speaker systems (no built-in lighting)
- Customisable flush or horn-style mounting options
- Discreet dual clamp mounting system for a secure and clean installation
- External 18dB/octave audiophile-grade high-pass crossover
- IPX6-rated front and grille with IPX5-rated frame for marine durability
- Marine-grade PEI rubber surround and Kapton voice coil former
- Neodymium motor structure for powerful, efficient performance
- All necessary mounting hardware included
- Designed for marine use with corrosion-resistant materials
- 2-year manufacturer's warranty
