Short Description

Titan is a tubular wall luminaire. With twin LED modules at either end of the fitting, the *Titan* wall light makes for an excellent bedside table fitting, illuminating both the furniture surface as well as the surrounding wall area.

This wall fitting is available in two LED colour temperatures as standard, either 3200K or 4000K.

Made entirely from marine-grade materials, the *Titan* luminaire is designed to continue to perform for many years, regardless of the environmental conditions. The fitting must, however, be kept protected from water and is designed for interior application only.

- 10-30Vdc input

- LED chip in 3200K or 4000K
- Remote voltage regulator installed on power cable can be easily removed if directly powering with required current
- Dimmable
- Chrome plated finish

Description

8748 *Titan* wall light features same output as 7088 *Alhena 50 Wall*. Please see below chart for photometric output data:
