Short Description

Mini push button made from solid brass, complete with mechanism, priced to clear

The mini push button is a high-quality, solid brass product designed for durability and style. Available in polished brass, chrome plated, or satin chrome finishes, it offers versatility and elegance for your cupboards. The button comes complete with a mechanism, which is available in brown or white, ensuring functionality and ease of use.

Suitable for panels with a thickness of up to 19mm, this product is made in Italy by Foresti & Suardi, known for their exceptional craftsmanship. As a discontinued product line, it is priced to clear with limited stock available.
