Short Description

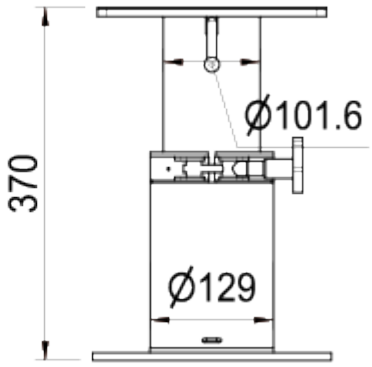

Manual gas assisted seat pedestal in 316-grade stainless steel

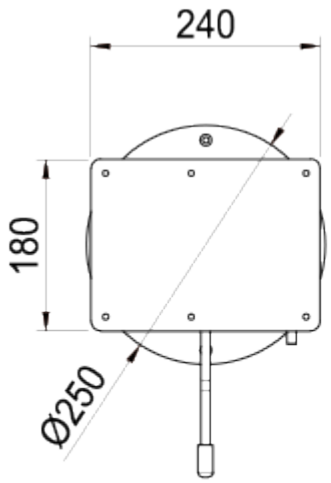

This 316 polished stainless steel seat pedestal is a durable and reliable choice for any setting. Featuring a convenient thumb wheel, it locks the pedestal securely in place, preventing it from raising, lowering, or rotating. When released, the pedestal can be manually rotated and the height adjusted using the secondary lever, providing flexibility and ease of use.

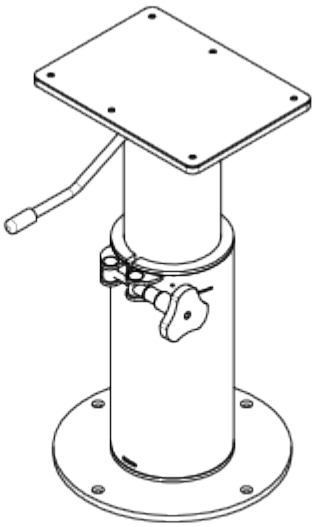

- 316 polished stainless steel seat pedestal
- Includes a thumb wheel for secure locking
- Manual rotation and height adjustment with secondary lever
- Made in Italy by Atep Italia
- Priced to clear as discontinued
