Stainless Steel Retractable Cleat - 265mm

£336.53
Excl. Tax: £280.44

Product Images

Short Description

316-grade stainless steel retractable deck cleat in three different sizes. The cleat features a smooth and strong action with Viton seal technology for durability and performance. This retractable deck cleat shares the same top profile as the *GEM* fixed cleat and makes for an excellent pairing. This particular model of cleat features a screw fixing for applications where access from underneath is not possible. The top stainless steel casting is quickly removed from the body of the cleat, providing access to the countersunk holes in the base plate.

- Screw fixing from top (fixings not supplied)
- Water drain connections for the middle and large size
- Polished finish

DESIGN **CHRISTIAN GRANDE**
