Short Description

A grey PVC shower hose with 1/2" BSP female connection at both ends.

This flexible hose is designed to be used together with a hand-held shower and connects the shower head to the water source. The hose is available in two lengths, either 1500mm or 2000mm. The hose features 1/2" C BSP female connection on both ends and is compatible with most shower heads and water outlets. The connections are made from chrome plated brass. Please check carefully that the connections are compatible with your requirement before ordering.
