Short Description

Our soft PVC insert is specifically designed for use with luff track profiles, offering a simple and effective solution for securing cushions in place. With a 6mm diameter, it can be easily wrapped in fabric and attached to a cushion, providing a snug and reliable fit within the luff track system. Ideal for marine or outdoor upholstery applications, this insert ensures a clean and professional finish.

- Soft PVC construction for flexibility and durability
- 6mm diameter suitable for standard luff track profiles
- Can be sewn or fastened into cushion seams
- Supplied in 60 metre rolls for convenience and efficiency
