Heated Steering Wheel - Sinel

£1,503.30
Excl. Tax: £1,252.75

Product Images

Short Description

The 'Sinel' heated steering wheel is a contemporary wheel with a 'T' spoke design that fits well in any helm. 'Sinel' is made from anodised aluminium and is designed to withstand the harsh marine environment whilst keeping your hands warm in cold conditions.

'Sinel' is available in two variations, analog - which is simply controlled with the touch of a switch (as pictured), or digital - which can be incorporated into your MFD.

This is a non-stocked wheel with various customisable options, please contact our Sales Team for further information.
