Short Description

Injection-moulded polyamide folding chairs

A refined reinterpretation of the classic director's chair, Amalfi combines sleek design with robust engineering. Crafted from injection-moulded polyamide and reinforced with marine-grade stainless steel pins, it offers durability without compromising on elegance. Designed for outdoor use, its Batyline seat and backrest ensure comfort in all weather conditions.

- Available in black or white

- Folds to just 14cm wide and stands independently
- Silicone grips prevent marking on teak decking
- All-weather resistant materials for year-round use
- Simple folding mechanism with four release pins
