# Stainless Steel Sliding Latch

**£76.82**
Excl. Tax: **£64.02**

## Product Images

## Short Description

### A 316-grade, stainless steel, spring-loaded sliding latch.

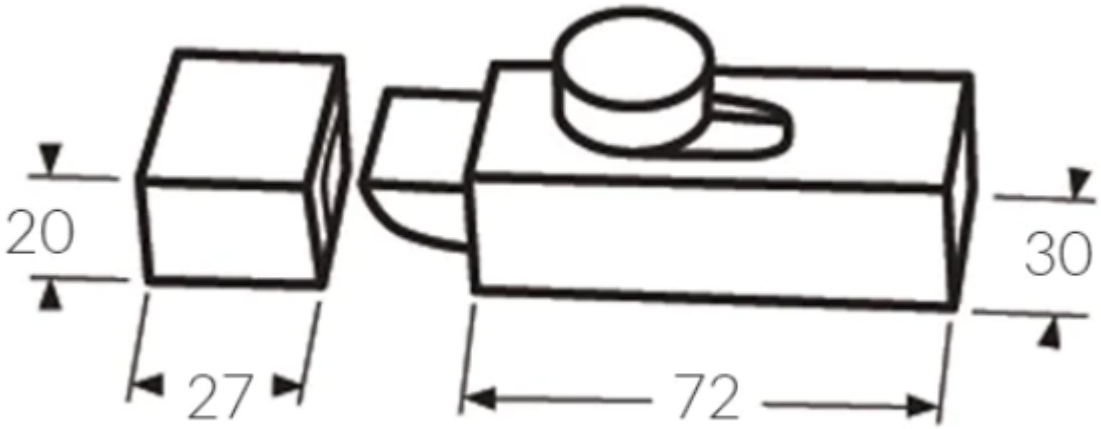

This 316-grade stainless steel, spring-loaded sliding latch offers a practical and reliable solution for situations where traditional locks are not suitable. Its spring-loaded design ensures automatic engagement when it meets the box striker plate, making it easy to operate. The black plastic tongue reduces noise and prevents metal-on-metal contact, providing a quieter and smoother function. Ideal for installations where a mortise

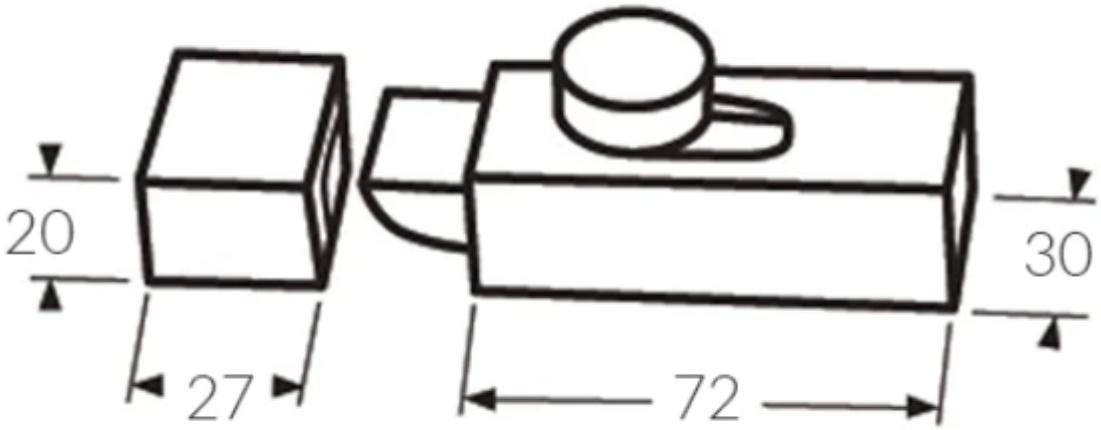

lock won't fit or a rim lock with handles isn't appropriate.

- Made from durable 316-grade stainless steel
- Spring-loaded for automatic engagement
- Black plastic tongue for quiet operation and reduced wear Ideal for situations where mortise or rim locks aren't suitable
- M4 countersunk screws or 3.5mm self-tapping countersunk screws recommended for installation 316-grade fixings available separately
