

Stainless Steel Friction Hinge - Standard

£49.54

Excl. Tax: £41.28

Product Images

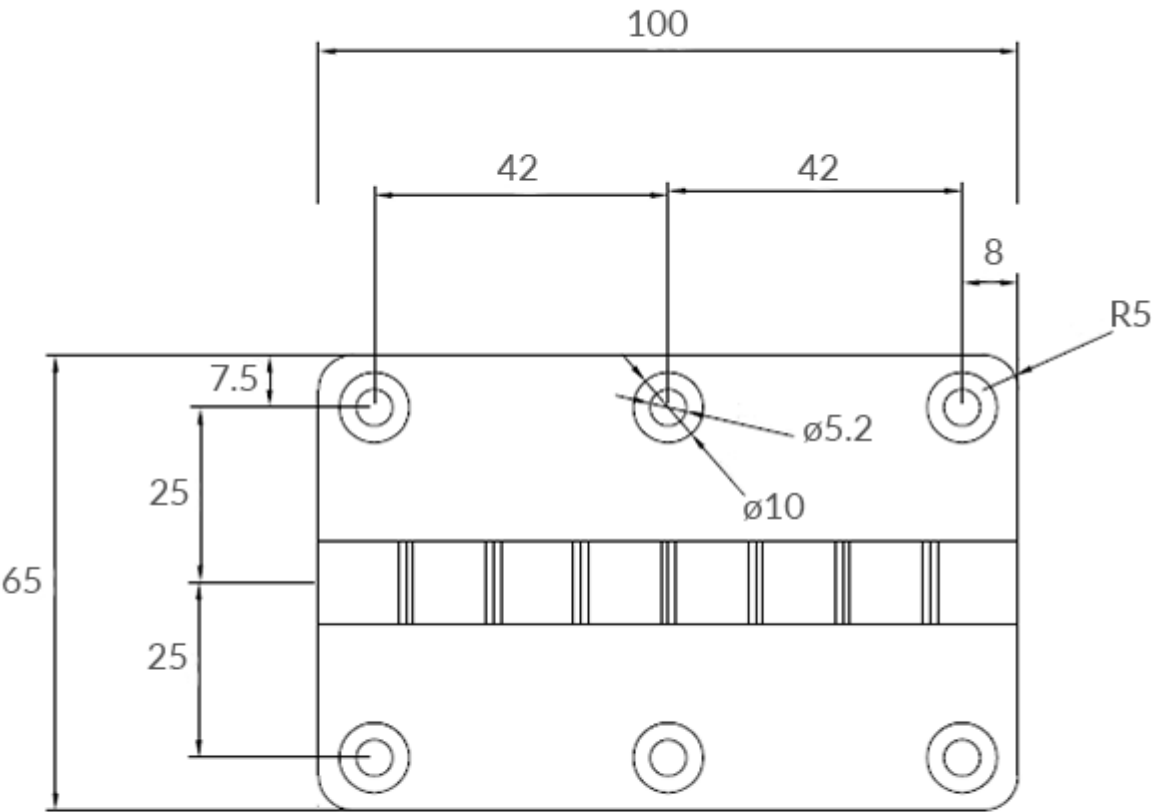

Short Description

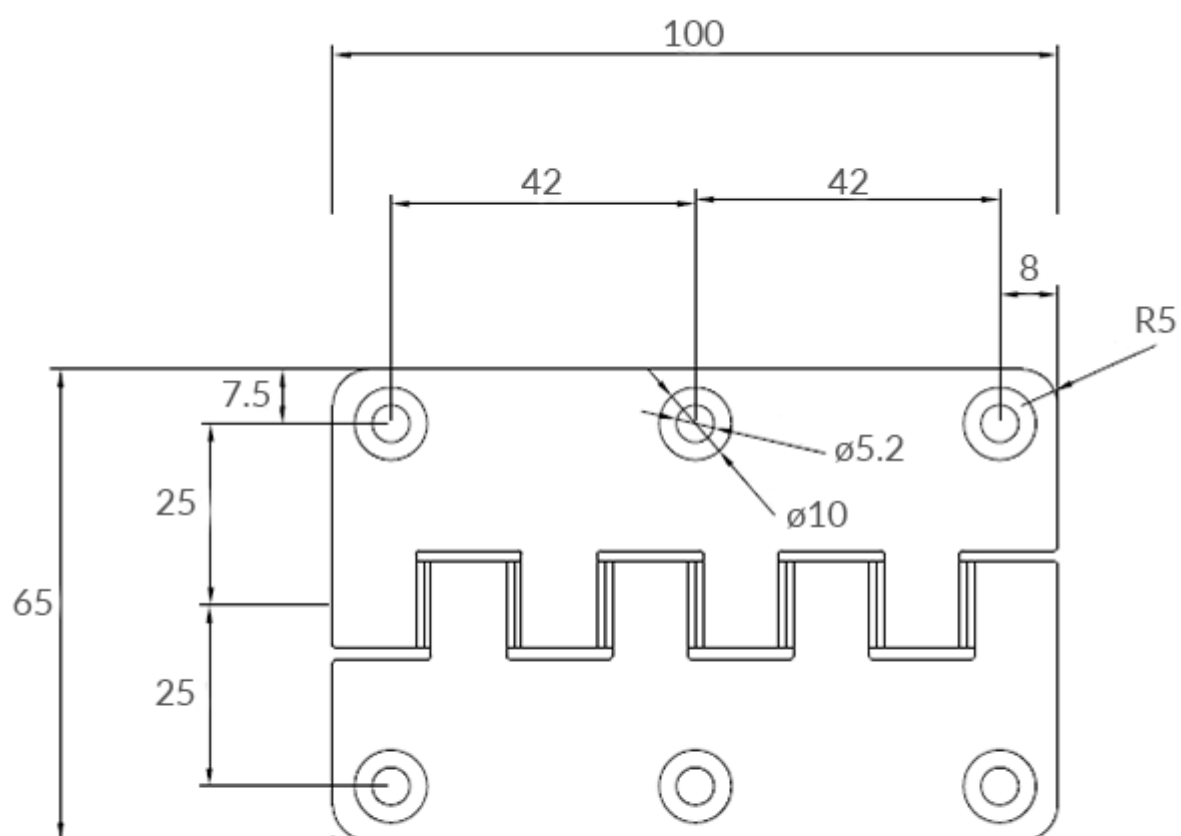

A friction hinge crafted from 316-grade stainless steel, the 1905 hinge is designed to offer controlled resistance to the pivoting motion of hinges.

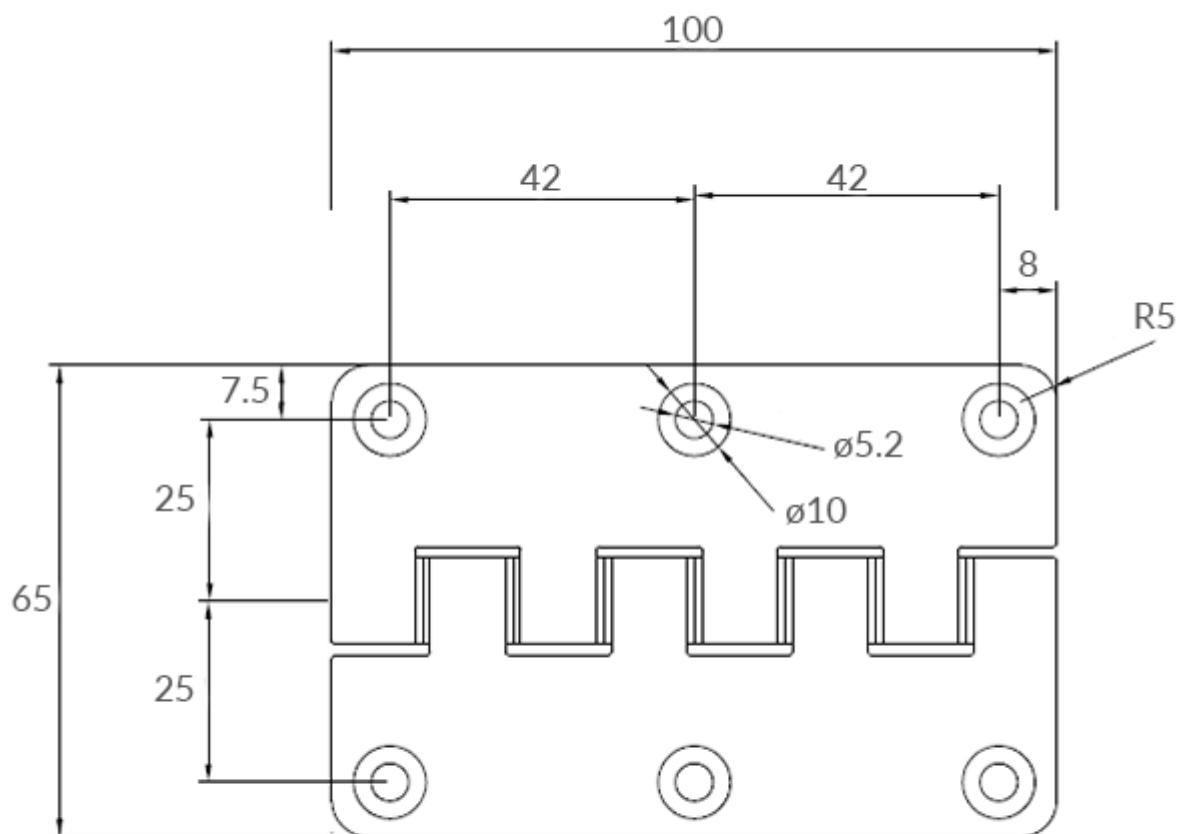

This specialised hinge can effectively manage and stabilise the opening and closing motion of pivoting objects. Available in two versions, namely the standard 1905A00SS and the reversed-pin 1905B00SS. Both versions generate a resistant torque equal to 5-6 Nm.

Dimensions

1905A00SS

Additional Information

Weight	0.100000
Finish	316 Stainless Steel
Hub Diameter (mm)	13.00
Leaf Thickness (mm)	3.0
Version	Standard - 1905A00SS
