Short Description

The P453 Stealth helm seat offers two options for the backrest: fixed (P 453 Stealth Fixed) or electrically reclining (P 453 Stealth Electric), catering to different preferences. Its rigid rear structure comes in carbon, fiberglass (available in white or black), or fabric covering, ensuring durability and style.

This pilot seat can be customised to a large extent, with a choice of upholstery materials including customer own supply. Other customisable features include embroidery details such as stitching pattern and inclusion of an embroidered logo as well as custom armrest solutions. In addition, the seat can be personalised with a range of pedestal and footrest combinations.

We encourage any prospective client to contact us to discuss their requirements so that we may be able to

guide them through the purchase of this product and help select the options required.
