- Screw fixing from above deck
- Smooth edge design for safety on deck
- Polished finish
- High load capacity
- No drains required - watertight shafts
- Backing plate available on request

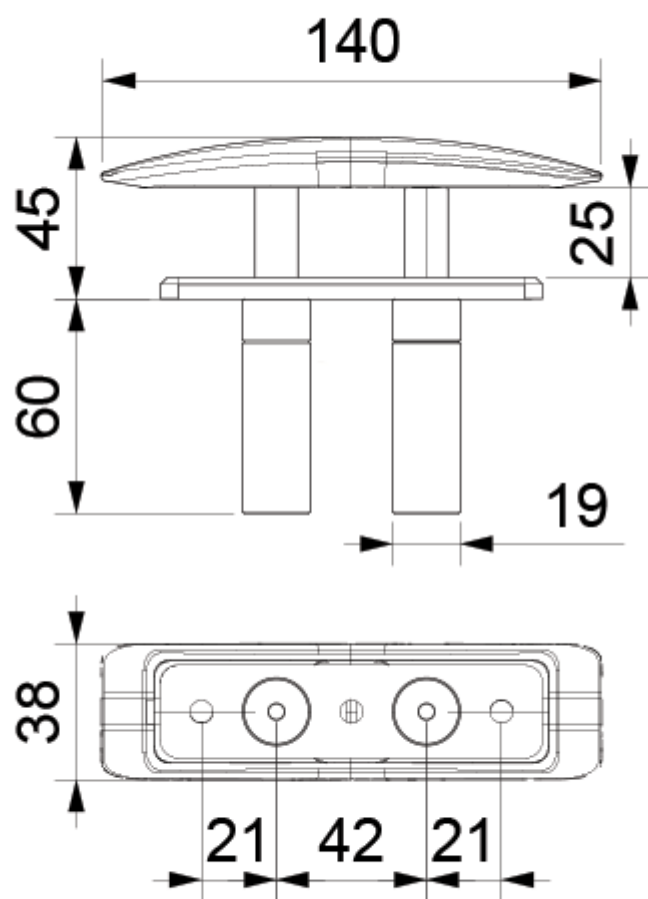

Description

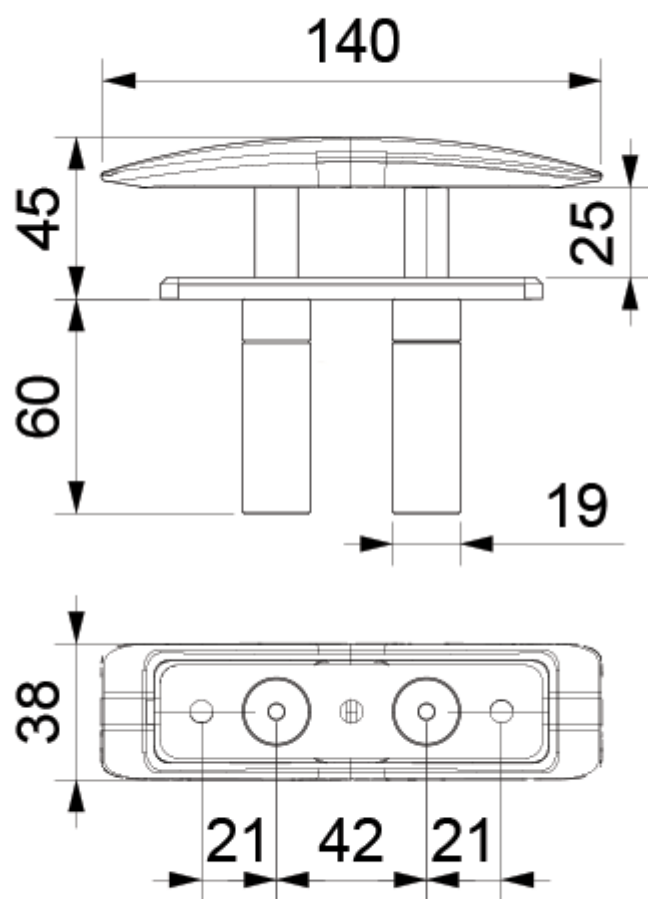

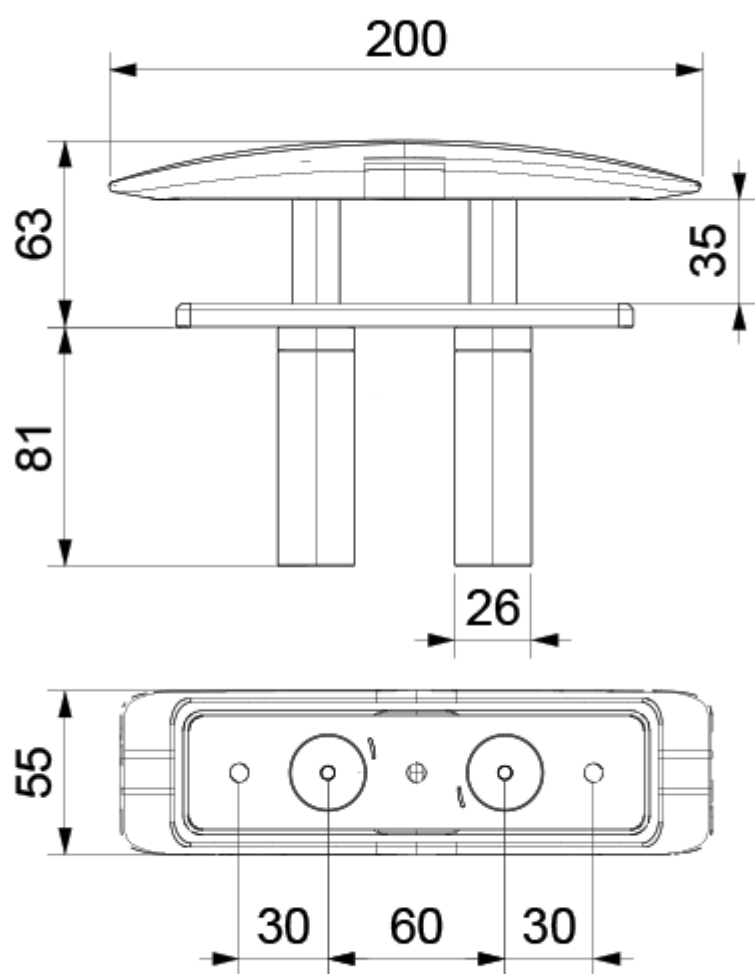

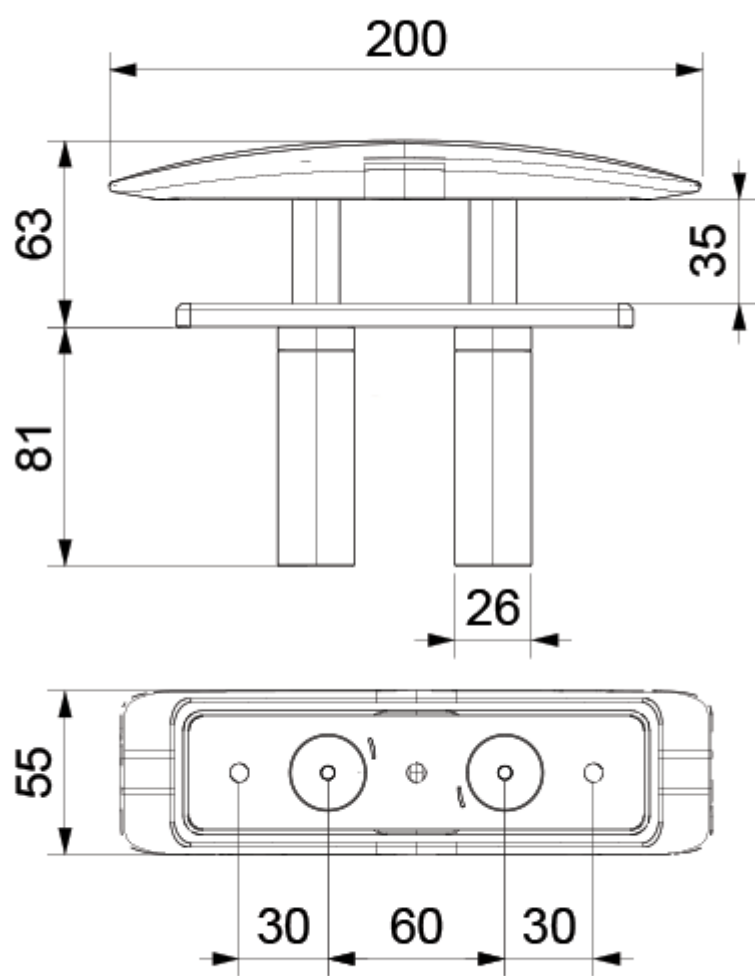

Elegance & Practicality

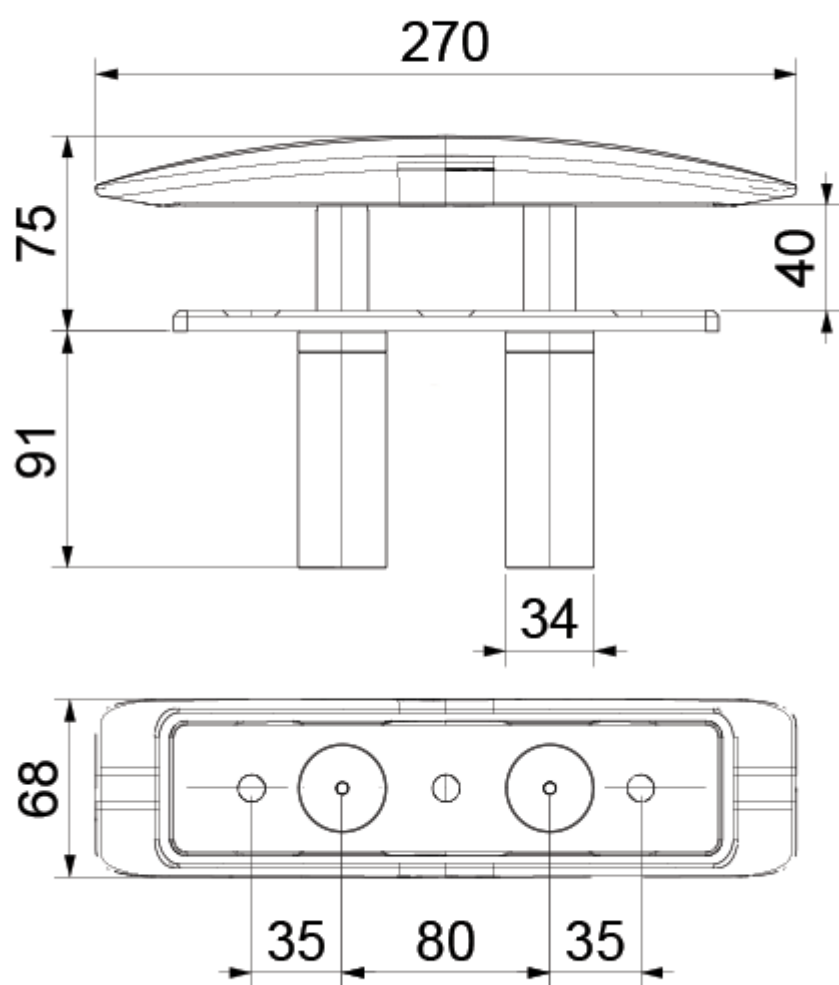

This retractable cleat is not only a beautiful addition to any deck but also an excellent practical choice. Effortlessly lowering when not required, the cleat helps to keep the deck clear from trip hazards. Viton™ seals ensure water can never pass through the cleat's shafts. The cleat is available in five different sizes and has a high load rating.
