316-Grade Single Lever Basin Mixer Tap

£583.88
Excl. Tax: £486.57

Product Images

Short Description

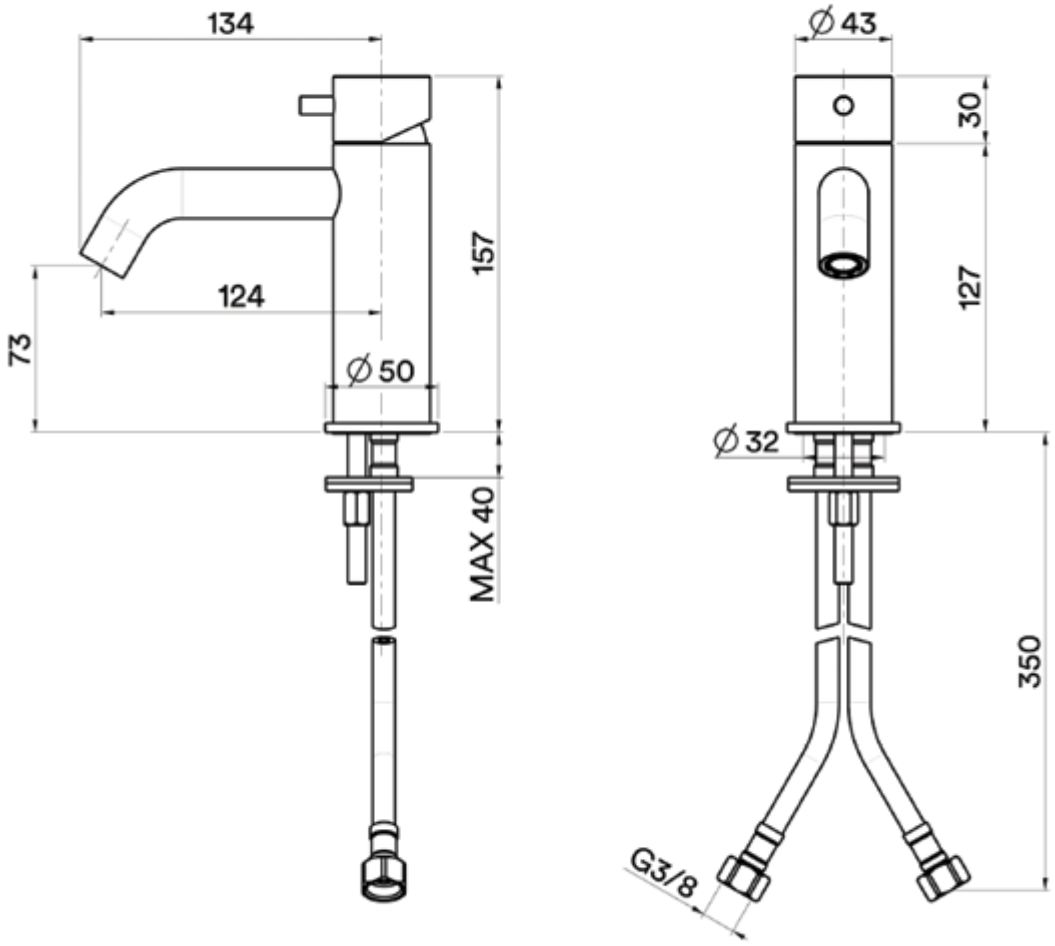

A marine-grade 316 stainless steel mixer tap.

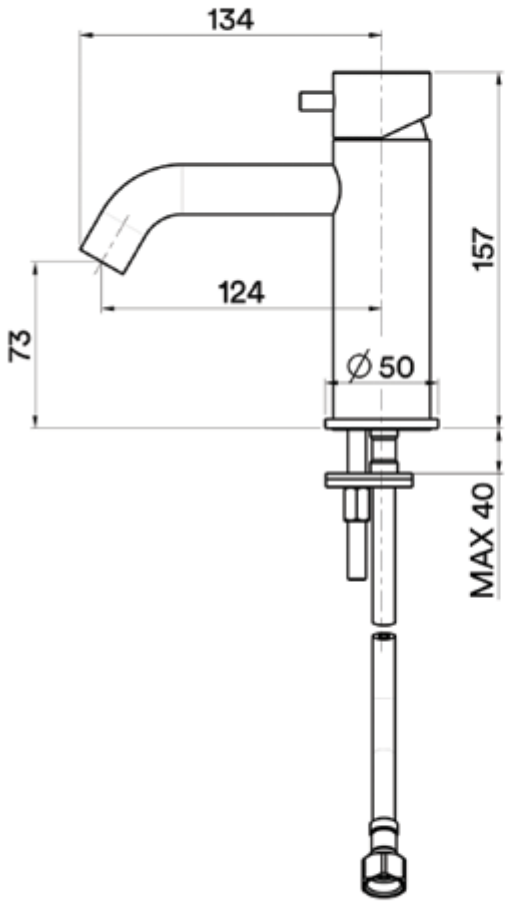

This basin mixer tap is made from 316-grade stainless steel ensuring it will continue to perform, even in the harshest of environments. Marine-grade stainless steel is not only highly resistant to corrosion, but it also helps prevent bacteria build-up and therefore offers a more hygenic solution over a brass product. It is also completely lead-free. This also means that the basin mixer can be used in exterior applications such as outdoor bars and kitchens, it is also suitable for coastal locations.

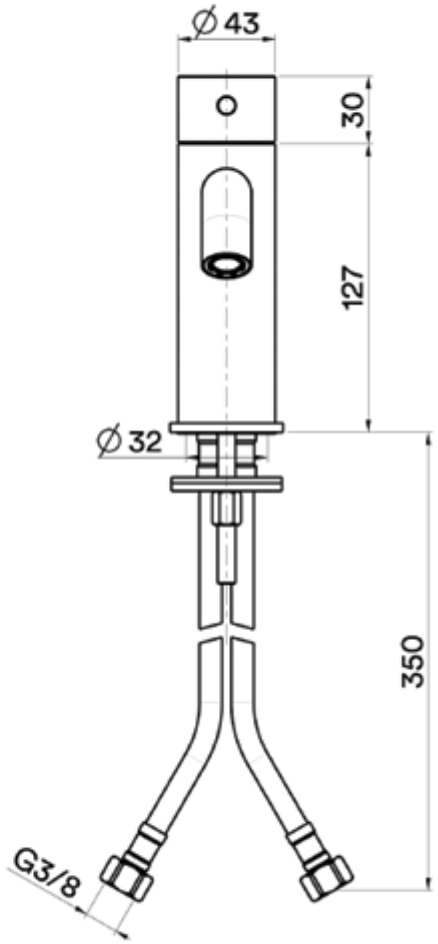

The product is sold in a brushed finish. Otehr finishes are available on request.
