Short Description

316-grade stainless steel over centre latch / hasp & staple with a polished finish.

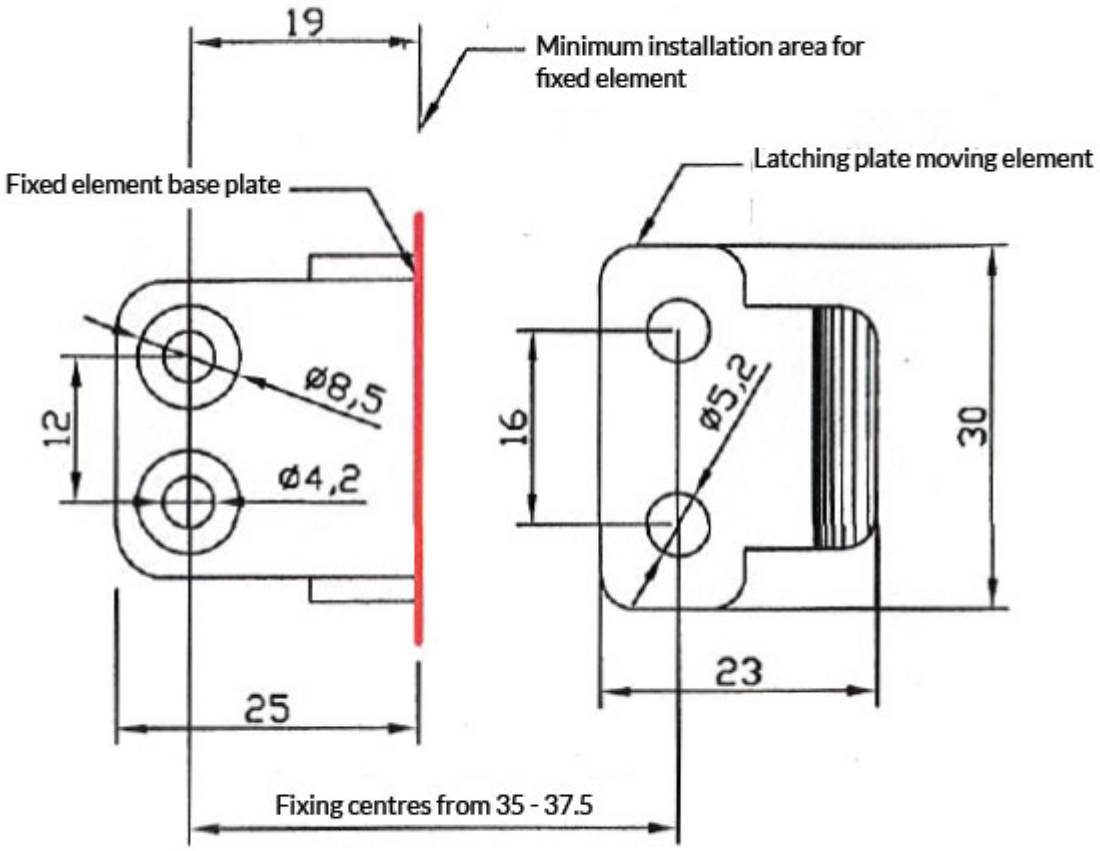

This stainless steel over centre latch is a high-quality modern interpretation of the classic hasp & staple. The product has a clean and minimalist design with a polished stainless steel body hiding the latching components underneath. A pair of springs provides tension when closed, offering an anti-vibration solution and an effective compression.

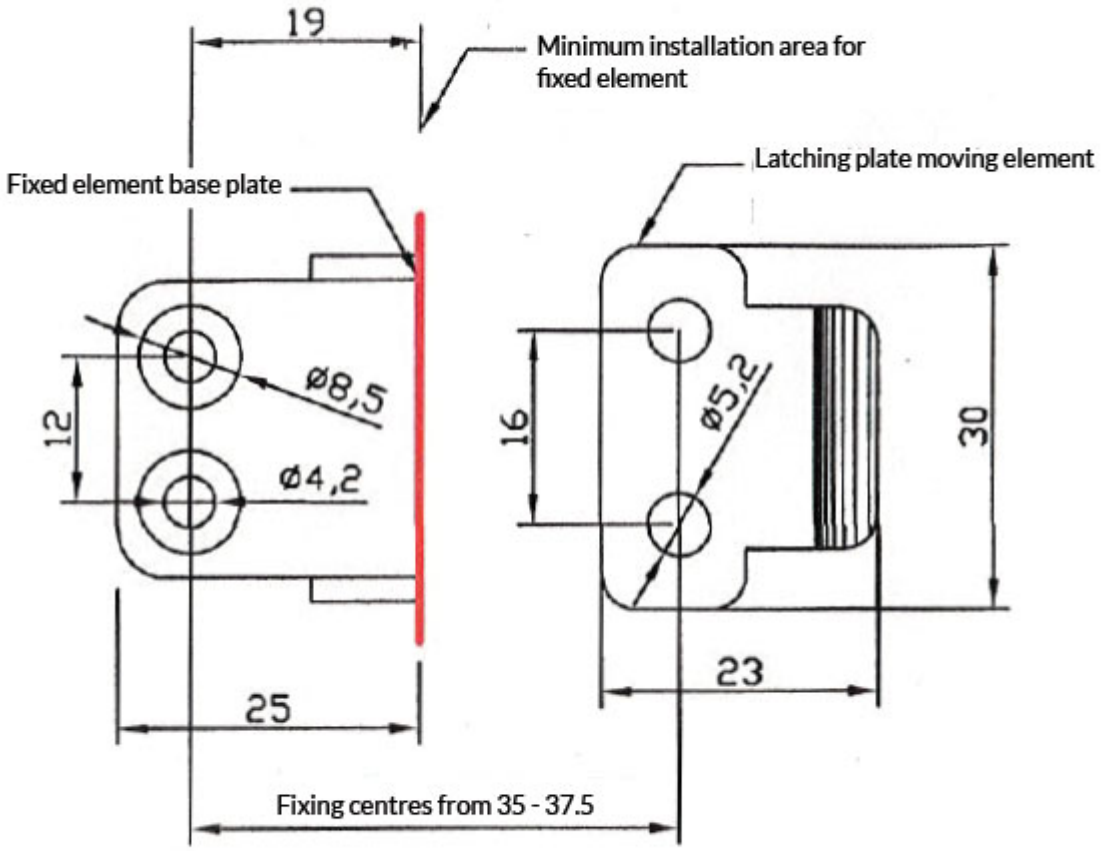

The product is supplied complete with a striker plate. M4 and M5 fixings are required to install the product and these can be purchased separately; please visit the related products section below.
