Short Description

Durable 316-grade stainless steel removable shower

This removable and folding shower by Foresti offers exceptional versatility and durability, crafted from polished AISI 316L stainless steel for superior corrosion resistance, even in harsh coastal environments.

Equipped with a quick coupling bushing at the base, a progressive hot/cold water mixer, and a 90° rotatable base, it is designed for ultimate convenience. When not in use, the shower can be stowed away using the

included bag, and the base can be covered with the dedicated cap for a seamless look.

Unlike traditional showers fixed in place, the 4225SS model can be easily removed and stored, making it ideal for seasonal or flexible applications. Perfect for any setting, this high-quality shower combines practical functionality with elegant design.

Approx. lead time of 6 weeks from order.
