Short Description

A pressure die cast brass lifting ring / drawer handle.

This pressure die cast brass lifting ring or drawer handle offers a practical and stylish solution for cabinetry or access panels. Available in a polished brass or chrome plated brass finish, it combines durability with a classic marine aesthetic. Ideal for both traditional and contemporary interiors, this fitting is well-suited to yacht, motorhome, or bespoke furniture applications.

This product is pressure die cast by Foresti & Suardi in Italy and is available in natural unlacquered brass or chrome plated brass. Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this are amongst the core products manufactured since those early days. The tooling may have been updated, and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.
