Short Description

Double tail brass hinge, available polished or chrome finished

The double tail hinge is a high-quality pressure die cast brass hinge, designed for both durability and style. Available in a choice of polished brass or chromed brass finishes, it offers a sleek and professional look to suit a variety of applications. This hinge comes in two different sizes, providing flexibility to meet your specific fitting requirements.

This product is pressure die cast by Foresti & Suardi in Italy and is available in natural unlacquered brass or chrome plated brass. Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this are amongst the core products manufactured since those early days. The tooling may have been updated, and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.
