Short Description

Double tail brass hinge available in a polished or chrome plated finish

This double tail hinge is a pressure die cast brass hinge, crafted for strength and longevity. It is available in a choice of polished brass or chromed brass finishes, offering both durability and an elegant appearance to complement a range of interior styles.

This product is pressure die cast by Foresti & Suardi in Italy and is available in natural unlacquered brass or chrome plated brass. Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this are amongst the core products manufactured since those early days. The tooling may have been updated, and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.
