Short Description

Die-cast brass hatch hinge, made in Italy

This hatch hinge, made from durable die-cast brass, is a classic piece of boat hardware, offering both strength and functionality. With a clearance under the strap of 7mm, it ensures smooth operation for your

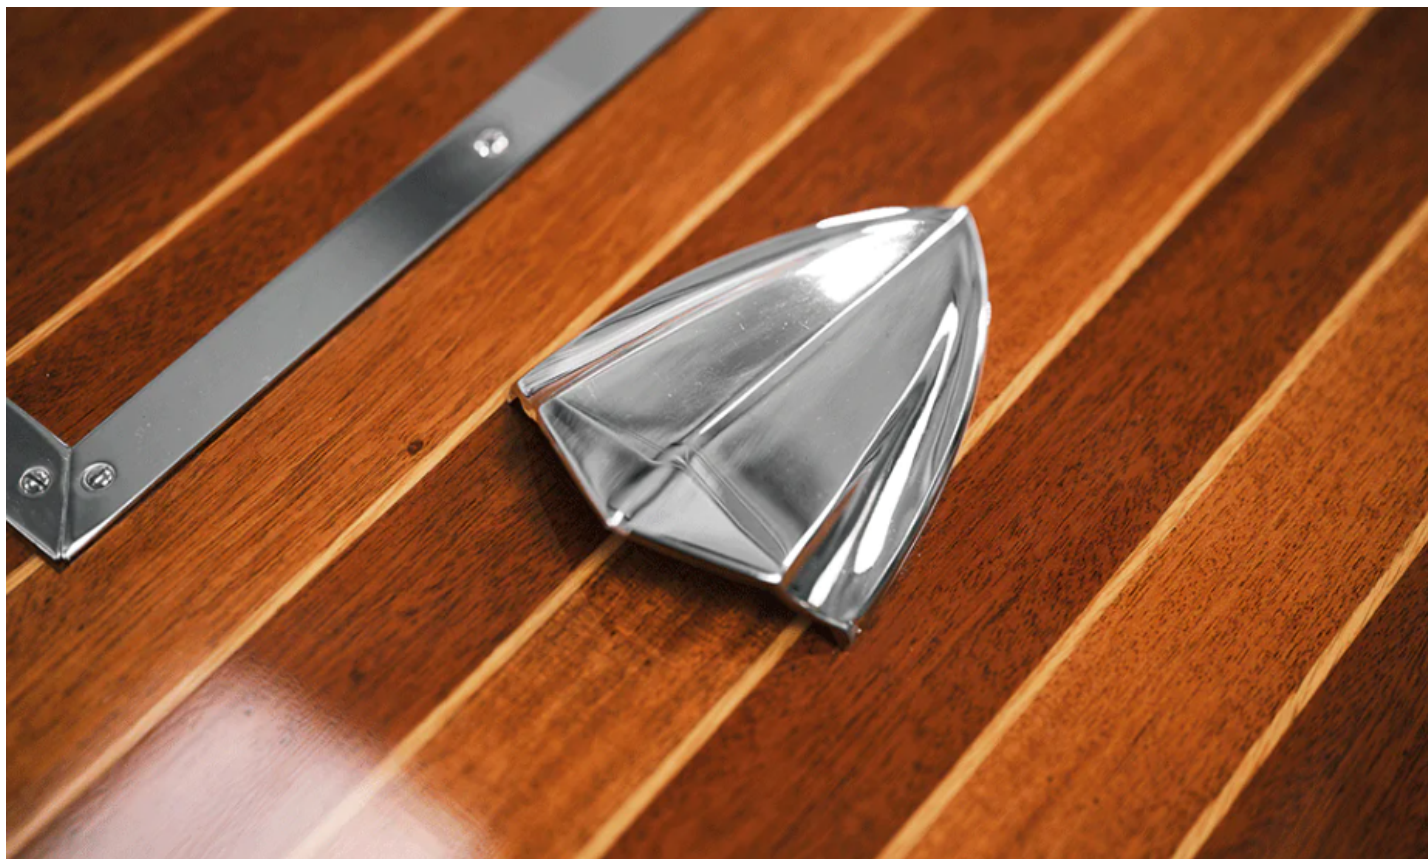

hatch.

Manufactured in Italy by Foresti & Suardi, renowned for their high-quality marine ironmongery, this hinge provides long-lasting performance. It's available at a highly discounted price due to excess stock, but remains a current item, making it a great opportunity for boat owners looking for quality hardware at a reduced cost.

Description

Heritage Collection

Our Heritage Collection features fittings that have been in our catalogue of hardware since the beginning of our brand back in 1978. The parts are typically pressure die cast brass and can be supplied in a polished, unlacquered finish or with a chrome plating. These parts are iconic pieces of 'deck jewellery', made famous by the 1960's and 70's timber craft and commonly used on modern interpretations of such boats.
