Short Description

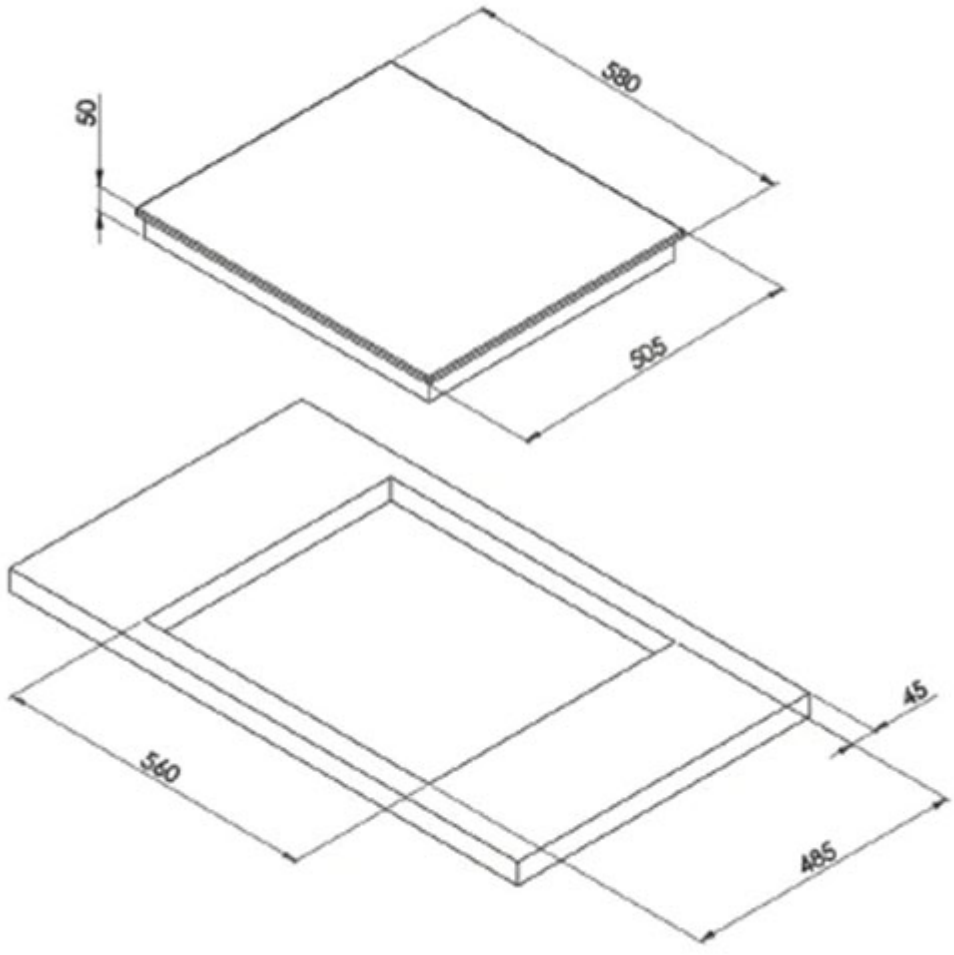

Electric glass ceramic hob, 230v, by Can Srl

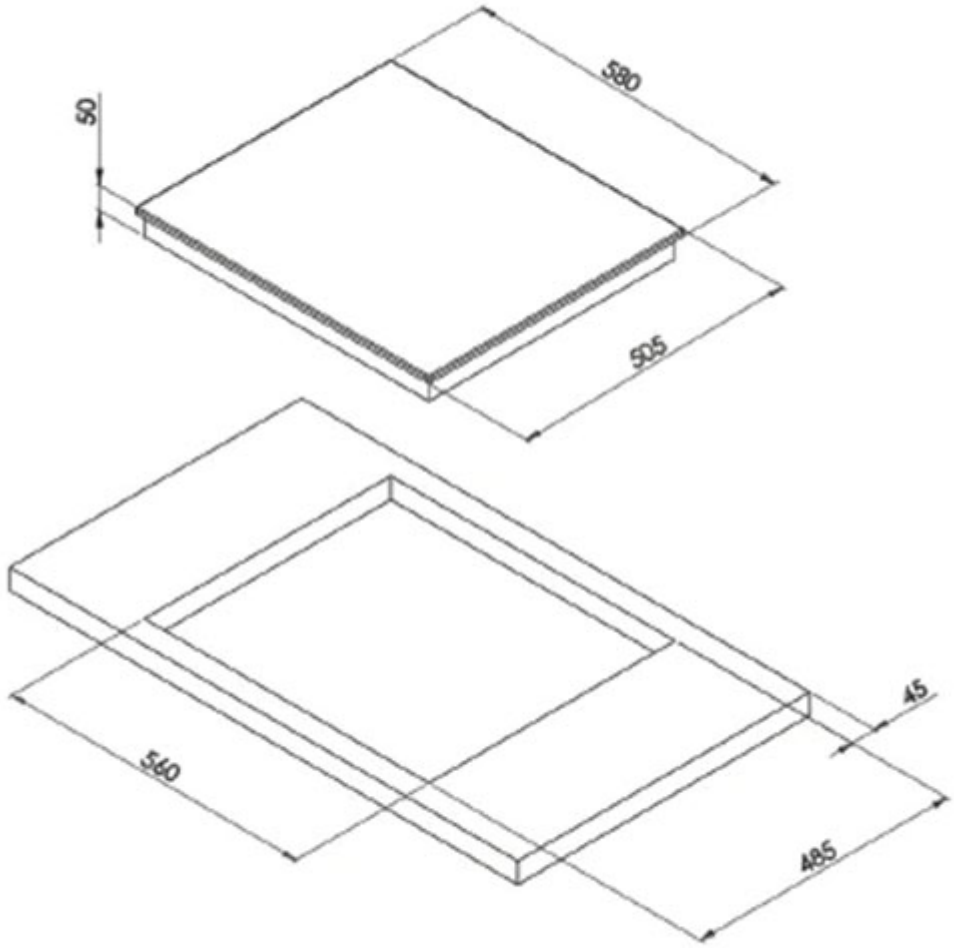

This sleek electric glass ceramic hob, made in Italy by Can Srl, offers a practical and compact solution for your cooking needs. With four heating elements and touch controls for easy operation, it provides a modern and user-friendly cooking experience. Safety features such as a lock function and residual heat indicator ensure added peace of mind.

Ideal for small kitchens, apartments, or as an additional cooking surface, this hob is priced to clear as it is no longer part of our regular stock.
