Short Description

A pressure die cast small brass hasp and staple.

Used to secure a door, locker or storage box, this pressure die cast hasp and staple is used in conjunction with a padlock for extra security. The hasp is fitted to the door and the staple to the surrounding frame. The staple passing over the hasp and being blocked by the insertion of a max. 6mm padlock (stainless steel fixings can be purchased separately, 5x No.6 3.5mm screws required). Available in either a polished brass or chromed brass finish. Please note, the fixings are always visible on this product, it is not intended as a high security solution.

Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this hasp and staple are amongst the core products manufactured since those early days. The tooling may have been updated and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.
