Short Description

Foresti & Suardi universal aerial base in chrome

A universally adjustable aerial base, designed for deck or side mounting. Crafted in Italy from high-quality pressure die-cast brass, this aerial base is finished with chrome-plate. With a quick-action handle, adjusting or removing your aerial becomes effortless, while the 95mm x 57mm base provides stability in all conditions.

Designed with a universal thread, it is compatible with all standard aerials, making this base an ideal choice for reliable performance and sophisticated aesthetics.
