Short Description

Pressure die cast brass lifting ring. Available in either a polished brass or chromed brass finish.

This flush handle is for interior or exterior application. This recessed handle is made from pressure die cast brass and is available in a polished natural brass finish or a chrome plated finish. It is the perfect solution for those needing a completely flush handle, simply push the top of the handle inwards and then lift the opposite end of the handle to fully extract it. The fitting is a handle only, it does not feature a latch.

The fitting is designed for use on panels from 25/26mm thick and is secured in place from the rear using 2x M3 screws (sold seperately - please see related products below).
