Short Description

Pressure die cast brass mast cleat in a chrome plated brass finish.

Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this solid brass cleat are amongst the core products manufactured since those early days. The tooling may have been updated and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.

The cleat is supplied in a chrome plated finish. The item is fixed in place using two countersunk screws (stainless steel screws sold separately). The product is not designed for heavy duty applications. Being made from brass, the item can be used in an interior or exterior application.

Additional Information

Weight	0.070000
Manufacturer	Foresti & Suardi
